Hello Shayne,

As far as I know OF-9 and OF-10 do not extend onto state owned aquatic lands. You may want to double check with Darin Deehr in title and records to confirm that we don't have authorizations in these areas.

It looks like OF 11 is 51-046322. This is a perpetual easement at the end of High Street, Bremerton.

That portion of the harbor area situate in front of a portion of Section 14, Township 24 North, Range 1 East, W.M., of the Bremerton Tide Lands included within the limits of a strip 15 feet in width, having 7.5 feet of such width on each side of the following described centerline:

Commencing at the northwest corner of said Section 14, thence S 85° 42' 21" E 2661.81 feet to a point on the meander line per State of Washington Board of State Land Commissioners, Maps of Bremerton Tide Lands, 28 February, 1913 (page 5), said point being the true point of beginning, thence N 28° 36' 45" E 13.61 feet to a point on the inner harbor line, said point being S 85° 58' 19" E 2667.48 feet from the northwest corner of Section 14, thence N 28° 36' 45" E 147.20 feet to the terminus point of this centerline description.

There is also easement 51-045730 in that area of Bremerton. This is a perpetual easement for a sanitary sewer line which runs along the inner harbor line.

Subject: BGW-104E Info Request

Lindie,

I am working to complete the 104E information request for BGW. Attached is an image of outfalls I found in a Bremerton Sediment Study report (also attached for reference). Could you help me correlate which outfalls go with which agreement?

I have identified OF-12 as being under 22-002655 (soon to be 51-095956)

Still looking to correlate agreement number with;

OF-09

OF-10

OF-11

Please let me know if you are aware of any of these not crossing onto SOAL or if one is included with marina folder.

Thank you for your help with this as well as all the other help you have provided towards this effort.

I sincerely appreciate your knowledge and expertise on this matter.

Shayne
